Triad Relocates to Woodinville

Woodinville, WA, February 10, 2015 – President Jeff Cox announces the relocation of Triad to an office located in Woodinville, Washington. The two-story space was leased from HRP Properties and contains a variety of office types, conference rooms, informal gathering spaces and a warehouse area. Former building tenants had made extensive improvements including upscale finishes, high-end lighting and a creative color palette.

Of the move, Cox said, “We feel very fortunate to have found this space. It suits us well today and will easily accommodate future growth. And our employees are happy with our new office’s proximity to SR522 and I405.” Cox continued, “John Pietromonaco was great to work with. We viewed the space, negotiated the lease, completed interior updates and moved all within a very short two months – just in time for our 40th anniversary party and open house. We’re settling in now, and we couldn’t be happier.”

About Triad

Triad produces high-quality design solutions for complex land development, infrastructure and construction projects around the Puget Sound region. Located in Woodinville, Triad provides professional services in five disciplines: site design, civil engineering, surveying, land use planning and landscape architecture.
